CALIFORNIA.

Nevada, February 15th.—About 3 o'clock this morning three masked men entered the cabin of an old man named Whiting, near the edge of town, and, presenting a cocked pistol at his head, ordered him to give them what money he had. They succeeded in obtaining \$20, and leaving the place, went to Samuel Gibson's cabin—a short distance off—where similar proceedings were enacted. From Gibson they took about \$25 and left. Shortly after one of the they cabin for a rope, to pull one of his pals the cabin for a rope, to pull one of his pals out of an old shaft into which he had fallen. Wesley Nichols, Milton Murphy and James Bohannan—all yours men of the city—have been arrested, charged with the robbery, and from the city—species. from the circumstances there seems to be a strong case against them. Nichols and Murphy are in jail, and Bohannan is out on bail. Their examination will be held to-morrow.

The men who were robbed are each over 70 The arguments in the Tamkin murder case, after occupying three days' time, were con-cluded this afternoon, and the case was given to the jury this evening.

The Killed Brakeman. BAKERSFIELD, February 15th,-The Coroner held an inquest this morning upon the body of William Harry Horn, who was killed near Celiente yesterday while uncoupling engines going up the Tehachapi grade. The engine passed over both legs, severing them from the body. No blame could be attached to anyone. Deceased was about 24 years of

age, and a native of Ohio. The funeral took place to-day at Sumner. The Los Angeles Abortion Case-Fatal Enging of an Old Fend. Los Angeles, February 15th.—The examination of Dr. A. S. Shorb, on a charge of procuring an abortion on Guadalupe Garcia, who died from the operation, has been in progress before City Justice Adams with closed doors since Monday, and promises to continue the balance of the week. The examination, so far, has been principally confined to medical testiment.

Advices from Portland. PORTLAND, February 15th.—There have been no-new developments in the Bradley case within thirty-six hours. A search of the house, which has been thorough, has re-

vealed nothing.
William Harrigan, who was picked up by his friends on Greenwich dock yesterday evening, after having been kicked in a fight with Frank Wilson, also a longshoreman, died at St. Vincent's Hospital this morning at 6 o'clock. He was examined by physicians last night, who did not think him so seriously injured as to cause death. The row originated. ording to the statement of bystanders, by Wilson making light of the way in which Harrigan handled wheat sacks, which he was loading on a dray, to which he took offense. But few blows had been exchanged, when Wilson kicked Harrigan in the groin and walked off, saying he had enough. Harrigan then attempted to again begin work, and in stooping to lift a sack fell to the floor. He complained of exeruciating pain in the region of the abdomen, and suffered terribly through the night. He was 50 years old, and unmarried. Wilson is a young man about 25 years old, tall, slender and active. He has not yet been arrested, but officers are out in search of him. Not knowing how badly in-

jured Harrigan was, it is thought Wilson is still in the city. Escape Recaptured - A Law Declared Void-Warehouse Burned-New Rail-

IDAHO. Sale of Mining Property. Boise City, February 15th .- J. C. Power & Co., of Rye valley, Baker county, Oregon, have sold their ditch and placer mining

property, located there, for \$40,000 in cash, to John W. Drew, of Concord, N. H., in trust for New England capitalists. The property has the reputation of being one of the best and surest-paying pieces of mining many supporting him. property in Oregon.

MINING MENTION.

Charlie Reed, of Hyapoo fame, struck a pocket of \$620 in the old Stud Horse mine, above Columbia, one day last week. -[Iuolumne Independent.

The work of running a tunnel on the Bonanza quartz ledge, located near Loganville, Sierra county, is soon to be commenced. The prospects are said to be en-

more promising than at the present time, and that a fine future is before that part of the country. The Commissioner of the General Land Office has decided, in regard to quartz lodes discovered in placer claims, that "lodes discovered within the limits of placer claims, after application for patent for the

placer claim was filed, is no bar to the issuance of a patent as applied for." The Hardscrable continues in operation with two giants, although the scarcity of chief.
water is beginning to be felt. A large scope of the surface, as deep as the flume will carry it, has been cleared, leaving a sufficient space for one or two season's work with an elevator.—[Shasta Courier.

A shaft 112 feet, and a level 120 feet in the Buchanan mine, discloses a fine mass of ore, all of which is impregnated with gold, while some of it is very rich. The vein is well defined, and present appearances de note that it will develop into one of the best paying mining properties in the county. - [Sonora Democrat.

The Geer mine, below Horsetown, only awaits water to begin operations, for which the past several months have been spent in preparation. Mr. Geer has put in a fifty-

Flat, and that the gentlemen will begin in the spring to develop the property. The Mohican has been worked enough heretofore to indicate that it is very likely to prove a valuable property if some money is spent judiciously in opening it up.— Nevada Transcript. The new ten-stamp cement mill in the

SINGULAR EFFECT OF TOO MUCH GUITEAU DISCUSSION.

A remarkable instance of emotional insanity, growing out of the recent trial of the assassin Guiteau, has just been brought to public notice in San Francisco. The victim was a bright and remarkably intelligent little girl, a mere child, aged $4\frac{1}{2}$ years, named Minnie Bullstead. She had been listening attentively to her parents been listening attentively to her parents discussing the forthcoming hanging of Guiteau, and while they were still engaged in conversation left the room. Her absence was noticed by her mother a minute or two afterward, and as she did not respond when called upon search was made for the missing child. When the mother entered a room in the rear portion of the house she was horified to find her little darling hanging approximately and setting to having been cured by them, you must believe and try them yourself, and doubt no longer. parently lifeless, suspended by a clothes line attached to a nail upon the wall. BAKERSFIELD, February 15th .- A distressing and fatal accident occurred at Caliente yesterday morning. A south-bound train, consisting of two engines, four box cars and a cabocse, was at the foot of the grade over the Tehachapi mountains. The engineer sud-denly backed down to get a fresh start. A brakeman named Harry Hern, who was standing on top of the cabcose at the rear end, not knowing of the backing down, was off his guard, and as the last car struck the cabo the shock threw him to the ground, and the entire train passed over him, crushing his right leg at the knee, and the left from the knee to the hip. He was immediately brought to Sumner and Dr. Stern was summoned. The doctor proceeded to amputate the injured limits, but when through with the right and at work on the left leg he said that the man could not survive, and desisted from further work. The wounded man lingered along until about 11:30 A. H., when he died.

THE IRISH DEBATE IN CONGRESS.

Mr. Robinson, of New York, did not succeed in getting the resolution adopted whereby he proposed to bring the British Lion to an accounting for the American-Irish "patriots" confined in Saxon jails. But though the House seemed somewhat ashamed of the situation, there were over one hundred members sufficiently demagogical to vote for the resolution; with which not one of them could have had the least sympathy. For of course they all, including Robinson of New York, know perfectly well that even if this inquiry was made, it would have no other effect than to Great Britain, and to bring upon Congress referred to have been imprisoned for the very sufficient reason that they have broken the laws of England. And when that information had been obtained there would be nothing for it but to drop the whole business, and so the demagogism of the episode would be exposed conspicuously. Not but what it is plain enough now, as the course of the minority showed on the occasion referred to. And if Robeson called Robinson a "demagogue" he only stated a truth which all the country is fully prepared to inderse after listening to his preposterous speech on this same question a couple of weeks ago. But the majority, even in Congress, evidently feel that the subject is one which had better be let alone, and that there is nothing in it but a very small quantity of a very worthless kind of political capital : a sort of "fiat' political capital, in short. They realize that no serious diplomatic negotiations can be proposed on the basis of an impertinence which the people of the United States would be the first to resent if England offered it to them, and even for the sake of pleasing the Fenians the country cannot be stultified in that way. When Irish-Americans choose to leave their adopted country and go to England or Ireland, and there violate the laws of the land, they regard to their American citizenship. That is how the United States deals with lawbreaking Englishmen, and the methods which we have made our own we certainly cannot complain of when employed by our

A GREAT DIFFICUL TY IN THE REFORMA. prison. In these interviews the aim of the TION OF CRIMINALS.

Several months ago the RECORD UNION, discussing the question of criminal reformation, pointed out the existence of an lmost unrecognized obstacle to all efforts n that direction, in the sinister and persistent influence of convicts upon one another after their discharge. A very startling illustration of this has just occurred. A man named Frank Armstrong committed suicide the other day in San Francisco, in sheer despair of escaping from the blackmailers who for years had made his life miserable, and whose hold upon him consisted in the fact that he had been a convict. This man was not an habitual criminal, but some five years ago he got drunk, and while in that condition stole an overcoat from a hotel. Quite probably no thought of theft was in his coat was his own. But he was arrested. Silver in London, 521-16d; consols, 1007-163; 5 per tried, and sent to the penitentiary for a year. It was a fatal mistake, no doubt, but men in his position are not without serious apprehensions of the influence of prejudice upon the minds of their employers, and they often yield to the threats of their former prison mates as the least of two evils. To yield in such a case, however, is to court ruin. The wretched class to which these jail birds belong has no sense of honor, no feeling of pity, no sympathy with one of their own number slough of crime. On the contrary, they hate him for wanting to liberate himself from their society, and they find truly to undertake the informal trial of accused devilish gratification in pulling him down, hopeless as themselves.

Last Saturday afternoon, at Stockton, boy of about 12 years of age was on Linday street, between California and Sutter playing with a "toy pistol." A small black dog came trotting along, and the boy remarked, as he pointed the pistol at the animal, "I'm going to frighten that dog." He pulled the trigger, and the dog dropped dead, with a "toy" bullet through the brain. Had it been pointed at a human being, the consequences would very likely have been equally as fatal. The lesson taught not long ago, when a lit tle boy was shot by one of these "toys,' nearly losing his life, should not be forgotten. The "toy pistol" danger is of ufficient importance to claim attention.

All over the valley, and even over in the foothills, the gophers are at work more han ever before known. Why is it? asks gration, or are they at work because of some climatic conditions? Does it presage wet or dry weather? We believe that climatic conditions often control the instincts of animals. The earth thrown out is generally wet. From what depth does it come? While on the gopher question, we would like to ask if any one knows what a gopher does with the earth when he makes an excavation? We have often seen a burrow from which at least a cubi foot of earth had been removed, and no visible sign on the top of the ground, or at most, only a few handfuls. What becomes

We are informed that a party of survey-ors, under charge of General Charles Cadwalader, is now in the field, engaged in the work of surveying the proposed extension of the Northern Railroad, from Willows to which is some three miles below Red Bluff, Work will be commenced on the road very soon, and it will be completed in time to take away the present harvest. It does not take the Central Pacific folks long to build a little piece of road like that. Now that this road will traverse the entire length of the county, it would be well for the Colusa people to see if a branch cannot be built at the same time. We ought to have railroad communication with the county. In fact, such communication is an absolute necessity. -[Colusa Sun.

> Commander Selby had been warned by the Albanian not to shoot in the vicinity of his flocks, but did not understand the warning Selby put his gun on the ground to show that he was peacefully inclined, whereupon the Albanian attempted to seize it. A struggle then ensued for the possession of the weapon. The Albanian desisted on Captain Greenfell pointing his gun at him, but afterwards returned with a comrade, when Commander Selby was attacked with an ax. While returning to their ship the English officers were attacked by fifteen Albanians, who knocked them senseless with the buttends of muskets, and bound them. Subsequently Consul Wrench succeeded in procuring the release of Commander Selby and his companion by offering himself as a hostage. Wrench was afterwards released.
